ONE TARA SCHOOL

It's a common belief across many cultures that ancestors die to become a star or "tara" to bejewel the sky. They shine upon us and light our path even on the darkest of nights. One Tara project under the flagship of DEVI Sansthan (Dignity Education Vision International) is an earnest effort to help all children learn

foundational skills which will help guide them on their future path to education and employment. Join the One Tara Campaign: you can be a star, helping guide the way for the future generation—in memory of your ancestors. By donating your labor of love, you can help all children learn to read, and read to learn.

*In memory of loved ones past
do something for young ones future*

WHEN & WHY

OF THE MATTER

Hundreds of millions of children around the world lack the foundational skills of reading, writing and arithmetic. We need a more catalytic way to provide free education to the children of the world. So we came with the concept of OneTara where you sponsor a child's holistic development. Currently we are serving 500 students but we aim to reach 500,000 students in the next 5 years. Our path of progress will be through mass volunteering, with people donating their own time and resources to provide free education.

SDG4 QUALITY EDUCATION

OneTara schools are powered by Accelerating Learning for All (AlfA). AlfA is a groundbreaking pedagogy, using paired learning and a known-to-unknown process to enable children to learn foundational skills in as little as 45 days.

We welcome children from 6- to 16-year-olds, who lack foundational skills. We welcome children of all backgrounds, but have a special focus on those who beg or conduct rag-picking. We endeavour to bring them up to Grade 3 or Grade 5 level, help them get a certificate through NIOS (National Institute of Open School), giving them a chance to join mainstream school thereafter.

SDG2

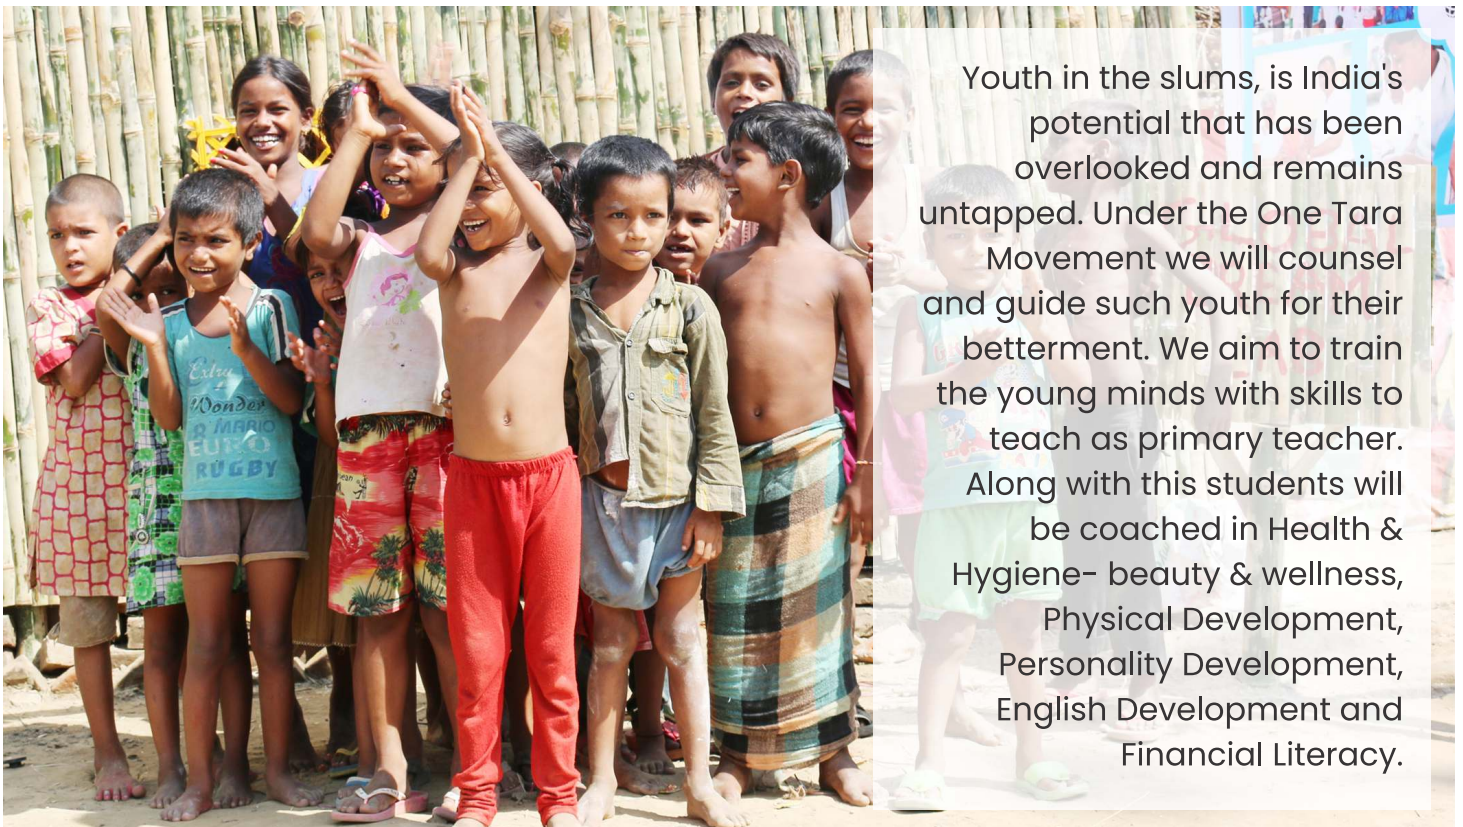

ZERO HUNGER

There is more than enough food produced today to feed everyone on the planet and yet millions sleep hungry. Under development in children due to malnutrition is on a record high. So in our endeavor to provide a nutritious plate to every child entering our classroom we seek to collaborate with other NGOs to help serve the underprivileged one square meal. When the body is nourished, then the mind will work to its optimum. Through free meals we also aim to instill in children social skills, personal hygiene and cleanliness.

SDG8

DECENT WORK & ECONOMIC GROWTH

Youth in the slums, is India's potential that has been overlooked and remains untapped. Under the One Tara Movement we will counsel and guide such youth for their betterment. We aim to train the young minds with skills to teach as primary teacher. Along with this students will be coached in Health & Hygiene- beauty & wellness, Physical Development, Personality Development, English Development and Financial Literacy.
